### Tradition and modernity

The Hotel takes its name from the typical neighbourhood of Indautxu, **in the very heart of the city**, in the **shopping and financial area**.

The building that houses the Indautxu Hotel, with **an exterior in a beautiful Bilbao style and an interior fully refurbished**, is an example of that combination of tradition and modernity that so well defines the spirit of this special city.

This is an establishment that, due to its location, service and comfort, satisfies both tourists seeking to enjoy the new Bilbao and those travelling on business.
